PLAY 1 · SETUP: DATA & PROMPT

Scripts + reports in. Build recipe out.

1 DATA IN

Script + 3 CUIC 15 reports

- script.aef / XML
- csq_activity.csv
- wrapup_reasons.csv
- ivr_traffic.csv

2 MASTER PROMPT

```
ROLE     Principal WxCC architect
MANDATE  No 1:1 DTMF ports
FIND     50%+ self-service deflection
         45-60s less wrap-up per call
STACK    AI Agent · AI Assistant
         Flow Designer · skill queues
OUTPUT   Node-by-node recipe
         No brittle JSON ASTs
```

3 OUTPUT

- Flow Designer recipe
- AI Agent system prompts
- Deflection targets

Sanitize PII, account #s, DB passwords

Raw .aef + CUIC CSVs → 50%+ AI deflection

PLAY 1 · WHAT WE LEARNED

UCCX: not a port. A transformation.

PURGED

- ~~4-level touch-tone tree~~
- ~~Hard-coded Java REST steps~~
- ~~45-60s manual wrap-up~~

BUILT ON WEBEX

Webex AI Agent
Loans · rates · resets + SMS

Webex AI Assistant
Screen pop · sentiment · GenAI wrap-up

8-node Flow recipe
Drag-and-drop in Control Hub

IMPACT

52%
tier-1 calls deflected

150+ hrs
agent time back / month

80%
faster design: weeks → minutes

Takeaway: Moving to WxCC is an AI-first transformation, not script porting.

PLAY 2 · SETUP: DATA & PROMPT

Graph every hunt chain

1 DATA IN

4 CUCM BAT exports

- hunt_pilots.csv
- hunt_lists.csv
- line_groups.csv
- phones_lines.csv

2 MASTER PROMPT

```
ROLE     Principal UC architect
GRAPH    Pilot → list → group → phone
DETECT   Circular RNA loops
         Orphaned line groups
TIER     Customer Assist
         Auto Attendant
         Hunt Group · direct DN
```

3 OUTPUT

- Dependency graph
- Loop + orphan report
- Right-sized queue map

Sanitize Extensions, MACs (per policy)

100+ hunt chains graphed. Zero spreadsheets.

PLAY 2 · WHAT WE LEARNED

Clean before you move

PURGED

- ~~2 orphaned hunt pilots~~
- ~~RNA loop 8801 ⇄ 8802~~
- ~~15 CUCM tables of sprawl~~

BUILT ON WEBEX

Customer Assist
IT Helpdesk 4100 · Billing 5200

Agent screen pops
Caller, dialed number, reason

Simple Hunt Group
Facilities 3000 stays basic

IMPACT

0
garbage configs migrated

Live
queue depth, agent state, SLA

5 min
topology audit vs. weeks

Takeaway: GenAI rationalizes hunt chains, so you migrate only what adds value.

PLAY 3 · SETUP: DATA & PROMPT

Turn greetings into a knowledge base

1 DATA IN

CallHandlerDataDump

- cuc_call_handlers.csv
- cuc_menu_entries.csv
- cuc_greetings_transcripts.csv
- cuc_company_directory.csv

2 MASTER PROMPT

```
ROLE     Principal collab architect
FLATTEN  3-tier DTMF → speech
         Request → destination
CONVERT  45s greetings → FAQ
ACTION   SMS links to callers
TARGET   Webex AI Receptionist
```

3 OUTPUT

- AI Receptionist FAQ table
- Intent → destination map
- SMS follow-up actions

Sanitize Staff cell #s → company DIDs

Static audio → 24/7 conversational Q&A

© 2026 Cisco and/or its affiliates. All rights reserved.

webex

PLAY 3 · WHAT WE LEARNED

Make the front door a conversation

PURGED

- ~~45-second menu monologues~~
- ~~3-tier IVR maze~~
- ~~After-hours voicemail dead ends~~

BUILT ON WEBEX

24/7 AI Receptionist
Greets, answers, routes

SMS follow-up
Directions · parking · payments

Smart escalation
Customer Assist + screen pop

IMPACT

1 turn
to the right destination

24/7
answers, zero hold time

Staff
freed from repetitive calls

Takeaway: Stop making callers listen. Let them talk.

PLAY 4 · SETUP: DATA & PROMPT

Dial plan in. CUBE config out.

1 DATA IN

10 CUCM BAT CSVs

routepattern	translationpattern
gateway	trunk
routegroup	routelist
partition	css
phone	ctiroutepoint

2 MASTER PROMPT

```
ROLE    Principal routing architect
AUDIT   Legacy H.323 gateways
        Old prefixes 91.10D, 9.01
NORMAL  +E.164 hybrid matrix
        on-prem ⇄ cloud users
CLI     IOS-XE CUBE config
        syntax-validated
```

3 OUTPUT

- CUBE dial-peers + SIP profiles
- +E.164 routing matrix
- Tech-debt audit

Sanitize Carrier IPs, trunk passwords

Production-ready CUBE CLI. Zero downtime.

© 2026 Cisco and/or its affiliates. All rights reserved.

PLAY 4 · WHAT WE LEARNED

Hybrid coexistence: migrate at your pace

PURGED

- ~~H.323 / MGCP gateways~~
- ~~Steering prefixes 91.10D, 9.~~
- ~~Hundreds of CSS / partitions~~

BUILT ON WEBEX

CUBE Local Gateway

Generated CLI · TLS / SRTP

Hybrid dialing

+197255560XX ⇄ +197255570XX

Voicemail AI

Transcripts to email + Webex App

IMPACT

0

downtime, dept-by-dept

1

shared PSTN trunk

Minutes

not weeks of dial-peers

Takeaway: Migrate thousands of users at your own pace, without disruption.
